

bibchen - Making Smaller Bibliographies

Richard Teague

October 7, 2018

Are you writing a proposal with citations and you need a smaller reference section? Tired of having to mess around with writing out each reference by hand to make it small enough to fit? **bibchen** is here to help!

If we have some rather long text citing Teague et al. (2018), Teague et al. (2017), Teague et al. (2016) and Teague et al. (2015) then we're good to go.
